Dear Steve,

Thank you for forwarding the comments from the County Ecologist.

It is confirmed that tree root zone protection will be in place around Tree 22 in accordance with BS5837:2012 Trees in relation to design, demolition and construction – recommendations.

The local water table will not be affected as it is ~34m below current surface levels within the area.

As requested within the County Ecologist's comments please find attached a copy of the Dormouse Survey Report.

If you require any further details please do
