

# T LEVELS

**T Levels are new courses and are studied at level 3 and they are equivalent to 3 A levels. They can be taken after GCSEs instead of A levels or other level 3 qualifications. They are 2-year courses which launched in September 2020. They have been developed by education and industry so that students who study them will be ready for the world of work in the industry they have chosen.**

T Levels offer students a mixture of classroom learning and 'on-the-job' experience during an industry placement of at least 315 hours (approximately 45 days). This is about 20% of the course and will give students the chance to put their new skills and knowledge into practice in the workplace.

T Levels are ideal if you have finished your GCSEs and want the knowledge and experience to get straight into employment, an apprenticeship or higher education.

During your classroom study you will be learning core theory which develops your academic knowledge. One T-Level is equivalent to 3 A levels and like A levels they also carry UCAS tariff points so you can apply for higher education. They are a nationally recognised qualification that can help prepare you for your career and/or studying at a higher level.
