

Mr Neil Furber Landscape Expert Evidence 14/11/24

STOP LEA CASTLE FARM QUARRY - 2nd Public enquiry 14/11/24

I attended Lea Castle Farm Quarry - 2nd Public Enquiry on the this morning 14/11/24

I would like to submit 3 questions to Mr Neil Furber evidence, which have risen from the evidence he gave today.

Mr Furber introduced himself with a long line of qualifications and experiences that he has within his field. He said he was now employed with Pegasus Group.

1) Mr Neil Furber was asked by Ms Wiggle if he had come across any bridal paths that were near to a quarry and that the Conveyer was positioned under a bridal path and horse and riders still can use these bridal paths.

**Question?**

How many horse and riders use this bridal path that the conveyer goes under the bridle path?

Did Mr Neil Furber ever return to these sites to get feedback on what his evidence has given to the community?

In his experience was there any accident with a horse or riders near to these bridal paths?

And was there an increase in horses illnesses by traveling near a sand and gravel quarry?

2) Mr Furber explained that the site will be restored and will have visual improvements Trees flowers and hedges and everything beautiful.

**Question ?**

If this is true then can Mr Furber explain that if the NRS Aggregates propose to take out 3million Tons of sand and gravel and replace it with 1.6million tons of Landfill then the maths surely shows a

3) At no time did Mr Furber talk about water which is concerning, as greenbelt can store thousands of

**Question?**

Where does he think the surplus water will go, into the rivers, which will contaminate
