

Subject: Objection to Proposed Quarry
a

In summary, I urge you to consider the substantial negative impacts this quarry would have on our community, particularly on nearby schools and residential areas. This development does not align with the health, safety, and sustainable future of our local area.

Thank you for considering these serious concerns.

I am also concerned at the lack of appropriate consultation for the latest proposed amendments which concern me in relation to dust and noise as the high of the bunds are reduced.

Why should NRS be allowed to substantially revise their application without starting the application process again. They should not be allowed to try to mitigate concerns as they go.

Yours sincerely,
Sue Knowles
